Introduction

The Public Accounts are the documents that contain the audited financial statements of the Province of British Columbia and other financial information presented to the Legislative Assembly to show compliance with the various statutory authorities. The government's financial statements are prepared in accordance with the accounting policies described in the Significant Accounting Policies note (Note 1) to the financial statements and on a basis consistent with that of the preceding year, except where a change or variation is explicitly described in that note.

Government Financial Statements

The government carries on its activities through a variety of appropriations, special funds, corporations and agencies. Financial statements are prepared to incorporate two levels of activity under its authority: the Consolidated Revenue Fund Financial Statements and the Summary Financial Statements.

Consolidated Revenue Fund financial statements incorporate the General Fund (main operating account and special accounts) and Special Funds such as the British Columbia Endowment Fund and Natural Resource Community Fund. These represent the funds over which the government has direct control. When the Consolidated Revenue Fund is consolidated with government organizations and enterprises, the result is the Summary Financial Statements. This is graphically illustrated below:

Each set of financial statements includes the following:

- *Statement of Financial Position*—shows recorded assets and liabilities, with the residual difference being net equity. In addition to the recorded assets, the province owns a significant number of physical assets, including highways, bridges, ferries and Crown land, which includes parks, forests and all other publicly-held land in the province.

- *Statement of Revenue and Expenditure*—a statement summarizing the items of revenue and expenditure for the fiscal year. The net revenue or expenditure for a year represents the change in net equity for the same period.
- *Statement of Changes in Cash and Temporary Investments*—a statement showing how the operating transactions (being those expenditures and other transactions which affect operating results) and financing transactions (being those transactions such as loans which affect the financial position but not the operating results) have affected the cash and temporary investments position of the government.
- *Notes and Supplementary Statements to Financial Statements*—these provide additional information on the amounts included in the financial statements and form an integral part of the financial statements.

Public Accounts Content

The Public Accounts are divided into two volumes as follows:

Volume I—Consolidated Reporting Entity, Trust Funds and Summaries of Financial Information Reports

- *Summary Financial Statements*—these statements have been prepared to disclose the economic impact of the government's activities. They aggregate the Consolidated Revenue Fund and government organizations and enterprises.
- *Financial Statements of Government Organizations and Enterprises*—this section contains the latest audited financial statements of government organizations and enterprises. A summary of financial information for other entities subject to the *Financial Information Act* is incorporated in the last section of this volume.
- *Trust Funds Financial Statements*—this section contains the latest audited financial statements of the pension, superannuation and long-term disability funds administered by the government. A summary of financial information for trust funds is included in this section.
- *Summaries of Financial Statements of Corporations and Agencies to which the Financial Information Act applies*—this section contains summaries of the financial statements of corporations, associations, boards, commissions, societies and public bodies required to report under the *Financial Information Act* (S.B.C. 1985, chapter 8, section 2) and not included elsewhere in this volume.

Volume II—Financial Statements and Schedules of the Consolidated Revenue Fund

- *Consolidated Revenue Fund Financial Statements*—these statements include the accounts of the Consolidated Revenue Fund, combining the activities of the General Fund with funds earmarked for specific purposes, Special Funds.
- *Supplementary Schedules to the Financial Statements*—this section contains schedules which support the information presented in the province's Consolidated Revenue Fund financial statements, including details of expenditures by ministerial appropriations, together with an analysis of statutory appropriations and Special Accounts and Special Funds transactions.
- *Detailed Schedules of Payments*—this section contains detailed schedules of salaries, wages, travel expenses, grants and other payments.

Auditor General of British Columbia

**AUDITOR GENERAL'S REPORT
ON THE
CONSOLIDATED REVENUE FUND
FINANCIAL STATEMENTS**

*To the Legislative Assembly
of the Province of British Columbia
Parliament Buildings
Victoria, British Columbia*

I have audited the statement of financial position of the Consolidated Revenue Fund of the Province of British Columbia as at March 31, 1994 and the statements of revenue and expenditure and changes in cash and temporary investments for the year then ended. These financial statements are the responsibility of the Government. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. In the conduct of my audit, I have received all the information and explanations I have required.

I report in accordance with section 7 of the Auditor General Act. In my opinion these financial statements present fairly, in all material respects, the financial position of the Consolidated Revenue Fund as at March 31, 1994 and the results of its operations and the changes in its financial position for the year then ended in accordance with the stated accounting policies as set out in note 1 to these financial statements applied on a basis consistent with that of the preceding year.

AUDITOR GENERAL'S REPORT
ON THE CONSOLIDATED REVENUE FUND FINANCIAL STATEMENTS

As described in note 1(a), these financial statements reflect only the transactions and balances of the Consolidated Revenue Fund, which consists of the General Fund and Special Funds. Other significant financial activities of the Government occur outside this reporting entity. These additional activities are reflected in the Summary Financial Statements of the Government, included in Volume I of the Public Accounts, which consolidate the Government organizations, including the Consolidated Revenue Fund, and enterprises to provide an accounting of substantially the full nature and extent of the financial affairs and resources for which the Government is responsible.

Statement of Responsibility for the Financial Statements of the Province of British Columbia

Responsibility for the integrity and objectivity of the financial statements of the Province of British Columbia rests with the government. The financial statements are prepared by the Comptroller General under the direction of the Treasury Board, pursuant to section 8(2) of the *Financial Administration Act*, in accordance with the government's stated accounting policies. Each financial statement covers the fiscal year of the government, which is from April 1 to March 31 of the following year.

To fulfill its accounting and reporting responsibilities, the government maintains systems of financial management and internal control which give due consideration to costs, benefits and risks, and which are designed to provide reasonable assurance that transactions are properly authorized by the Legislative Assembly, are executed in accordance with prescribed regulations, are properly recorded so as to maintain accountability of public money and safeguard the assets and properties of the Province of British Columbia under government administration. The Comptroller General of British Columbia maintains the accounts of British Columbia, a centralized record of the government's financial transactions, and obtains additional information as required from ministries, agencies and Crown corporations to meet accounting and reporting requirements.

The Auditor General of British Columbia provides an independent opinion on the financial statements prepared by the government. The duties of the Auditor General in that respect are contained in section 7 of the *Auditor General Act*.

Annually, the financial statements are tabled in the Legislature as part of the Public Accounts, and are referred to the Standing Committee on Public Accounts of the Legislative Assembly. The Standing Committee on Public Accounts reports to the Legislative Assembly on the results of its examination together with any recommendations it may have with respect to the financial statements and accompanying audit opinions.

Approved on behalf of the Government of the Province of British Columbia:

Notes to Consolidated Revenue Fund Financial Statements for the Fiscal Year Ended March 31, 1994

1. Significant Accounting Policies

(a) REPORTING ENTITY

These financial statements include the transactions and balances of the General Fund and Special Funds which combined are known as the Consolidated Revenue Fund. Separate summary financial statements of the government are prepared which include the financial activities of the Consolidated Revenue Fund and government organizations and enterprises. (See Summary Financial Statements in volume 1 of the Public Accounts.)

For purposes of these financial statements, the General Fund and Special Funds of the government are presented as one Consolidated Revenue Fund, which is comprised of:

- General Fund—includes all transactions and balances of the government not otherwise earmarked by legislative action, including those of the Queen's Printer and the Purchasing Commission, special accounts and other statutory spending authorities; and
- Special Funds—amounts set aside from the General Fund by special disposition of the Legislature.

(b) PRINCIPLES OF COMBINATION

The accounts of the General Fund are combined with the Special Funds after adjusting them to conform with the accounting policies as described below. Inter-fund revenue and expenditure transactions are eliminated upon combination.

(c) BASIS OF ACCOUNTING AND SPECIFIC POLICIES

The government's Consolidated Revenue Fund financial statements are prepared in accordance with the accounting policies described below and on a basis consistent with that of the preceding year.

BASIS OF ACCOUNTING

The accrual basis of accounting is used, which is specifically expressed as follows:

Revenue

All revenues are recorded on an accrual basis except when the accruals cannot be determined with a reasonable degree of certainty or where their estimation is impracticable. The exception is corporate income tax, which is recorded on a cash basis. Revenues from government enterprises are recognized when cash transfers are received or when dividends are declared.

Fuel Taxes levied under the provisions of the *British Columbia Transit Act* and Fuel and Social Services Taxes levied under the provisions of the *Build BC Act* are recorded and reported as financing transactions and are not included in revenue.

Expenditure

All expenditures, including the cost of fixed assets, are recorded for goods and services received during the year. Grants (which include forgivable loans) are recorded as expenditures when disbursement of the funds has been authorized. Contributions are recorded as expenditures at the earlier of:

- (i) the date payment has been authorized; or
 - (ii) the date on which performance conditions are achieved by the recipient under provisions of a statute, contract or agreement.
- Authorized contributions relating to retroactive wage settlements are recorded as an expenditure of the period during which the services were provided.

Recoveries of expenditure may be recorded as a credit to the appropriate expenditure account when:

- (i) they can be specifically identified with the expenditure transactions and payment has actually been made from an appropriation;
- (ii) provision for them has been approved through the Estimates; and
- (iii) the expenditure to which they relate was incurred in the same fiscal year.

Tax credits/offsets are accrued on the same basis as the associated tax revenues.

Assets

All assets are recorded to the extent that they represent cash and claims upon outside parties or items held for resale to outside parties as a result of events and transactions prior to the year-end. Rental payments for leases which transfer the benefits and risks incident to the ownership of certain assets, not including special purpose buildings, are reported as expenditures at the dates of inception of the leases.

Liabilities

All liabilities are recorded to the extent that they represent claims payable to outside parties as a result of events and transactions prior to the year-end, including: probable losses on loan guarantees issued by the government; contingent liabilities when it is likely a liability exists and the amount of the liability can be reasonably determined on an individual or portfolio basis; and, unfunded pension liabilities calculated using the Accrued Benefit Actuarial Cost Method.

Changes in the unfunded liability for pension plans which arise as a result of estimation adjustments due to experience gains and losses and changes in actuarial assumptions are amortized over expected average remaining service life of the related employee group. Gains or losses arising as a result of plan amendments are recognized in full in the year of amendment.

Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated to Canadian dollars at the exchange rate prevailing at the year-end, and foreign currency transactions are translated at the exchange rate prevailing at the date of the transaction unless hedged by forward contracts which specify the rate of exchange. Adjustments to revenue or expenditure transactions arising as a result of foreign currency translation are credited or charged to operations at the time the adjustments arise. Unrealized foreign currency gains and losses on long-term, fixed-term monetary assets and liabilities are reported as deferred charges and amortized over the remaining terms of the related items on a straight line basis.

Non-monetary assets and liabilities are translated at historical rates of exchange.

Concessionary Loans and Mortgages

Loans and mortgages that are made at a rate of interest below the government's borrowing rate for an equivalent term are considered concessionary.

Concessionary loans and mortgages are recorded at their net present value (net of grant component) less any provision required for doubtful collection. Present value discounts are recorded as grant expenditures.

Principal repayments of concessionary loans and mortgages will be applied to the reduced loan or mortgage balance (net present value) and then recorded as revenue (recovery of a grant) when received.

Valuation Allowances

Valuation allowances, such as provisions for doubtful accounts and provisions for reduction in value of investments, are included as expenditures on the statement of revenue and expenditure. Personal income tax, corporate income tax and property tax are recorded net of tax credits and adjustments which are based on revised assessments of actual tax revenue of previous taxation years. Tax credits and adjustments are not considered valuation allowances.

SPECIFIC POLICIES

Cash and Temporary Investments

Cash balances are shown after deducting outstanding cheques issued prior to the year-end. Cheques issued subsequent to the year-end relating to the previous year are included in accounts payable.

Temporary investments include short-term investments recorded at the lower of cost or market value. Temporary investments consist mainly of units in the Province of British Columbia Pooled Investment Portfolio money market funds. Units are carried at the lower of cost of acquisition adjusted by income attributed to the units, or market value.

Accounts Receivable

All amounts receivable (including any trade receivables from government organizations and enterprises) at the year-end for work performed, goods supplied or services rendered are recorded as revenue or recoveries of the fiscal year. Valuation allowances are provided where collectability is considered doubtful.

Inventories

Inventories comprise items held for resale and are recorded at the lower of cost or net realizable value. Inventories of supplies are charged to the respective programs when the cost is incurred.

Property under development, which will be eventually sold to outside parties, is recorded at the lower of cost or net realizable value.

Amounts Due From Other Governments

Amounts due from other governments include loans and advances outstanding at the year-end.

Investments In and Amounts Due From Crown Corporations and Agencies

Investments in and amounts due represent long-term investments and amounts due, other than trade receivables, and are recorded at cost unless significant prolonged impairment in value has occurred, in which case they are written down to recognize this loss in value. If, in periods subsequent to recognizing this impairment, the value of the investment is restored, the investment is written up to the lesser of restored value or original cost.

Loans, Advances and Other Investments

Loans, advances and other investments are recorded at cost less adjustment for any prolonged impairment in value.

Mortgages Receivable

Mortgages receivable are secured by real estate and are repayable over periods ranging up to thirty years. Valuation allowances are made where collectability is considered doubtful.

Fiscal Agency Loan Program

Fiscal Agency Loan Program consists of loans made to government bodies, and cash and temporary investments set aside for the specific purpose of loaning to government bodies. Loans are recorded at maturity value less unamortized discounts and sinking fund balances. Discounts are amortized on an effective yield basis.

Only loans made under this program that are recoverable from agencies, and not dependent on future appropriations, are considered financial assets.

Other Assets

Other assets include prepaid program costs. Prepaid program costs represent expenditures made during the fiscal year for work to be performed, goods to be supplied, services to be rendered or contractual obligations to be fulfilled by outside parties in a subsequent fiscal year. These costs also include inventories of operating materials held in the Purchasing Commission and Queen's Printer warehouses pending distribution in a subsequent fiscal year.

Also included in other assets are certain deferred charges.

Physical Assets

Disbursements for physical assets are recorded as expenditures in the year the assets are received. Consistent with the reporting of physical assets as expenditures, highways, bridges, wharves, ferries and ferry landings, buildings, office equipment, furniture, automobiles and Crown land comprised of parks, forests and all other publicly held land by the province, not including property under development, are recorded at a nominal value of \$1.

Accounts Payable and Accrued Liabilities

All amounts payable (including any trade payables to government organizations and enterprises) for work performed, goods supplied, services known to have been rendered or for charges incurred in accordance with the terms of a contract are recorded as part of the expenditures of the fiscal year.

Amounts Due to Other Governments

Amounts due to other governments represent liabilities incurred due to advances and loans from other governments.

Due to Crown Corporations, Agencies and Funds

Amounts due to Crown corporations, agencies and funds represent liabilities incurred, other than trade payables, which are payable in the following year.

Deferred Revenue

Deferred revenue represents amounts received or receivable prior to the year-end relating to revenue that will be earned in subsequent fiscal years.

Public Debt

Public debt represents direct debt obligations for the purposes of the Government of British Columbia and the Fiscal Agency Loan Program. These obligations are recorded at principal less unamortized discounts and sinking fund balances where applicable. Discounts are amortized on an effective yield basis.

Guaranteed Debt

Guaranteed debt represents that debt of municipalities and other local governments, private enterprises and individuals, and debt and minority interests of provincial Crown corporations, which has been explicitly guaranteed or indemnified by the government, under the authority of a statute, as to net principal or redemption provisions. Valuation allowances are made where probable losses can be reasonably estimated.

A valuation allowance provision is established representing the probable losses on loan guarantees issued by the government. The amount of the provision is determined by the loss experience of the guarantee program and is sufficient to meet the expected payout of the guarantee to the lender. The provision is recorded as an expense in the year the guarantee is issued and is adjusted as necessary to ensure it equals the expected payout of the guarantee.

Commitments

Commitments represent future obligations of the government for capital contracts and extraordinary program commitments, to the extent of contracts and agreements in place at the year-end.

1994 Change in Accounting Policy and Estimate

During the year, the province changed its accounting policy to allow fuel taxes levied under the provisions of the *British Columbia Transit Act* and fuel and social services taxes levied under the provisions of the *Build BC Act* to be reported as financing transactions. As such, receipts under these Acts are not included in gross revenues of the province and the subsequent payments to the relevant Crown corporation are not included in expenditures. In 1993/94, the amounts were: British Columbia Transit Levy; \$69 million (1993: \$51 million) and *Build BC Act* \$30 million (1993: \$nil).

During the year, the province changed its basis of recognizing personal income taxes and established programs financing entitlements relating to health and post-secondary education programs. Previously, these revenues were reported on the basis of cash received during the fiscal year from the Government of Canada based on federal estimates of amounts due to the province under the terms of the Tax Collection Agreement and the provisions of federal legislation, respectively. The province now estimates these revenues on the basis of more accurate information of the province's entitlements. This change has been applied retroactively. The impact on the province's accumulated deficit is shown in Note 18.

During the year, the province changed its method of calculating the unfunded pension liabilities from the Level Contribution Funding Actuarial Cost Method to the Accrued Benefit Actuarial Cost Method.

¹The initial accrued pension liability of \$445 million was based on an actuarial evaluation of the unfunded portion of the Public Service Pension Plan for March 31, 1990 plus an estimated amount for Members of the Legislative Assembly Superannuation Account. As a result of a new actuarial evaluation of the Public Service Pension Plan done for March 31, 1993, the outstanding liability has decreased by \$299 million to \$146 million. This estimation adjustment, due to experience gains and changes in actuarial assumptions, will be amortized to operating costs over the expected average remaining service life of the related employee group (12 years) in accordance with the established accounting policy. Fiscal 1993/94 expenses, therefore, include a \$25 million recovery and the accrued pension liability has been reduced accordingly. The unamortized portion of the estimation adjustment as at March 31, 1994 is \$274 million.

²Includes pending litigation, provision for clean up of Expo land site, provision for guaranteed debt payout and other miscellaneous accrued claims.

When CPP contributions exceed benefits, these excess funds are loaned to the provinces in proportion by residents of the respective provinces.

- \$51 million to record the estimated cost of periodic future payments for claims under the Criminal Injury Compensation Program adjudicated during prior years.
- \$18 million to recognize the unfunded liability of the Public Service Long Term Disability Plan as determined by an actuarial valuation.

19. Physical Assets

Physical assets are recorded as expenditures in the year they are received. Expenditures for physical assets are classified in the books of the province as "Asset Acquisitions." An estimate of the value of the acquired physical assets, along with applicable depreciation, can be found in H11 of the Supplementary Schedules to the Financial Statements section in this Volume.

20. Contingencies and Commitments

(a) GUARANTEED DEBT

Guaranteed debt as at March 31, 1994 totalled \$4.2 billion (1993: \$4.8 billion). See Statement of Guaranteed Debt on G30 for details.

(b) CONTINGENT LIABILITIES

(i) Litigation and Other Claims

The government is a defendant in legal actions and is involved in matters such as expropriation compensation disputes and tax assessment appeals. These matters may give rise to future liabilities.

These potential liabilities are accrued when it is likely that a liability exists and the amount of the liability can be reasonably estimated on an individual or portfolio basis (see Note 2—Other accrued estimated liabilities).

The government has contingent liabilities in respect of the following summary of matters where the estimated or known claim is or exceeds \$100,000 and is net of accrued amounts:

- claims of \$76.4 million in expropriation disputes;
- claims of \$6.7 million in contract disputes;
- claims of \$29.6 million in construction disputes;
- claims of \$6.7 million regarding negligent design, construction or maintenance of roads;
- claims of \$10.0 million against the Securities Commission;
- claims of \$13.9 million regarding motor vehicle accidents;
- claims of \$18.0 million regarding damages to persons or property and other miscellaneous matters; and
- claims of \$4.3 million against assessments for logging and mining taxes.

Notes to Consolidated Revenue Fund Financial Statements for the Fiscal Year Ended March 31, 1994—Continued

20. Contingencies and Commitments—Continued

(ii) Other Contingent Liabilities

The government also has contingent liabilities in the form of indemnities, indirect guarantees and outstanding claims. Where indemnities are for explicit quantifiable loans, the amounts are included in the statement of guaranteed debt.

Under the *Criminal Injury Compensation Act*, the government is responsible for providing compensation to victims of crime in British Columbia, for offenses described in the Act. A liability has been accrued based on the estimated cost of periodic future payments for claims.

The government operates and indemnifies pre-funded self-insurance programs to cover claims against public school districts and colleges, hospitals and other health care agencies, and certain social service providers. A liability has been accrued based on the estimated cost of settling outstanding claims.

Under current pension agreements, the government is responsible for payment of pensioners' Medical Services Plan and Extended Health Care premiums, which are recorded when due.

(iii) Aboriginal Land Claims

The absence of treaties relating to most of the territory constituting the Province of British Columbia has resulted in a number of outstanding aboriginal land claims across British Columbia. Some of these claims have resulted in litigation but most have simply been submitted to governments for negotiation. The province's position on these claims is that, although the province recognizes aboriginal rights including the inherent right of aboriginal people to self-government, the precise location, scope, and content of these rights should be established not through litigation, but by means of tripartite negotiations involving the federal and provincial governments and aboriginal groups. The province anticipates that these negotiations will result in modern day treaties defining the boundaries and nature of aboriginal lands and rights and ensure a more stable environment for resource development in British Columbia.

Forty tribal councils and bands have had statements of intent to negotiate treaties accepted by the British Columbia Treaty Commission. The claim of Nisga'a Tribal Council in the Nass Valley in northwestern British Columbia is the only claim under active negotiation, although both the federal and provincial governments are committed to engaging in multiple negotiations over the next several years. The British Columbia Treaty Commission will facilitate these negotiations in the future.

There is currently one major aboriginal rights case before the courts in British Columbia. It involves a claim by Hereditary Chiefs and the houses they represent to jurisdiction and control over approximately 5.5 million hectares located in mainly rural and wilderness areas of British Columbia. They also seek declarations which challenge the province's ownership and jurisdiction over the lands, mines, minerals, royalties, resources and all other matters within the claim area. They assert that the province's jurisdiction is subject to their right of ownership and further that the province cannot issue licenses or permits authorizing the use of any resources. They also seek damages from the province for wrongful appropriation and the use of the claim area. The claim was dismissed at trial on March 8, 1991. The trial judge held that all land-based aboriginal rights were lawfully extinguished in colonial times (pre-1871). The trial decision was appealed to the British Columbia Court of Appeal which rendered its judgment allowing the appeal in part on June 25, 1993.

The Court of Appeal dismissed the plaintiffs' claims of ownership and jurisdiction, but held that aboriginal rights had not been extinguished as a result of colonial legislation or actions of either the provincial or federal governments before or since 1871 (when British Columbia entered Confederation). The court held that because of the division of powers in the *Constitution Act, 1867*, the province was constitutionally incompetent to extinguish aboriginal rights after 1871, and could only legitimately displace or suspend such rights under section 88 of the *Indian Act (Canada)*, which came into force in 1951. While the Court of Appeal dismissed the plaintiffs' claims for damages because it was based on their assertion of ownership and jurisdiction, the court left open the possibility of other claims for damages or other remedies associated with provincial interference with aboriginal rights, particularly between 1871 and 1951. However, the court also indicated that the validity of Crown grants and resource tenures issued before 1982 (when the then existing aboriginal and treaty rights of aboriginal peoples became constitutionally recognized and affirmed under the *Constitution Act, 1982*) could not now be called into question. Since 1982, any government interference with then existing aboriginal rights must be justified (in accordance with a test previously established by the Supreme Court of Canada) by the government authority so interfering.

Aboriginal rights were not specifically defined by the Court of Appeal other than as activities relating to use and occupation of land that an organized aboriginal society regarded as an integral part of their distinctive culture at the time of the declaration of British sovereignty (1846) over what is now the Province of British Columbia. However, the court did state that aboriginal rights are non-exclusive and are not necessarily incompatible with other types of land use. The court held that the precise scope, content and location of aboriginal rights and the reconciliation of those rights with other uses of lands and resources were left to be determined in trial proceedings properly framed to deal with those issues. However, the court also indicated throughout the judgment that those issues were "ripe for negotiation" and encouraged the parties to negotiate their differences.

Leave to appeal this case was granted by the Supreme Court of Canada on March 25, 1994. However, pursuant to an agreement between the parties made on June 13, 1994 an adjournment of the proceedings in the Supreme Court of Canada was obtained to allow the parties time to attempt to resolve the issues raised in this case by negotiation.

Seven other cases involving aboriginal rights issues were also recently decided by the Court of Appeal. These cases can be categorized as follows:

- hunting cases wherein an aboriginal right to hunt for sustenance and ceremonial purposes was held to exist and consequently certain provincial statutory provisions were held to be inoperative in their application to aboriginal peoples;

Notes to Consolidated Revenue Fund Financial Statements for the Fiscal Year Ended March 31, 1994—Continued

20. Contingencies and Commitments—Continued

- commercial fishing cases wherein the aboriginal right to fish for sustenance and ceremonial purposes was held not to extend to commercial fishing; and
- fishing cases wherein the right of native bands to establish bylaws with respect to reserve lands was held not to extend to regulation of fishing on rivers running through reserves.

Those cases, with the exception of the hunting cases, are also on appeal to the Supreme Court of Canada.

(iv) Unfunded Pension Liabilities of Dependent Organizations

The government provides significant funding for organizations with statutory pension plans having unfunded liabilities. The province has no legal liability, guarantee or obligation to pay for the shortfall with respect to the contributions made to those funds. Bill 53—1994, which received Royal Assent on July 8, 1994, establishes a requirement that the employer provide additional contributions in the event that the unfunded liability increases as a percentage of payroll.

The estimated unfunded liability based on the most recent actuarial evaluation using the level contributions method is:

	Date	Unfunded Liability In Millions
		\$
College Pension Plan	Aug 31, 1991	45
Teachers' Pension Plan	Dec 31, 1990	1,880
Municipal Pension Plan	Dec 31, 1991	1,410

(c) COMMITMENTS

The government has ongoing operational commitments to fund a variety of programs for public welfare including health, education, social services, protection of persons and properties, and management of natural resources. In addition, the government normally contracts out construction or maintenance of its roads, bridges and buildings. All these ongoing operational commitments are detailed in the Estimates published yearly and are not repeated in this note. Any significant non-operating commitments (less than five years duration costing more than \$50 million) and their completion costs would be detailed in this note. No significant non-operating commitments existed as at March 31, 1994.

¹See the Trust Funds Financial Statements section of the Public Accounts for the latest audited financial statements of superannuation and pension funds, the Workers' Compensation Board and most entities whose sinking funds are administered by the Provincial Treasury.

²The amounts for six of the superannuation and pension funds totalling \$13.8 billion (1993: \$11.5 billion) and for the Workers' Compensation Board of British Columbia, have been taken from these funds' latest audited financial statements which have a different fiscal year-end than these financial statements.

³Defeased Trust Funds of \$992 million (1993: \$1,477 million) represent investments set aside to repay outstanding term debts with a par value of \$989 million (1993: \$1,493 million) and related interest payments. Accrued interest payable on term debts at March 31, 1994 totals \$23 million (1993: \$40 million). These defeased debts have been removed from the balance sheet of government organizations and enterprises and are considered extinguished for financial reporting purposes.

⁴Some balances from the previous year have been restated to reflect the changed presentation or more current information.

25. Comparatives

Certain of the comparative figures for the previous year have been reclassified and adjusted to conform with the current year's presentation. Total revenue was increased by \$160 million as a result of the change in estimates of outstanding receivables/liabilities as follows:

- Personal income tax increased by \$194 million;
- Corporate Capital Tax increased by \$40 million;
- Timber sales increased by \$15 million; and,
- Established Programs Financing decreased by \$89 million.

Total expenditure was decreased by \$24 million as a result of a correction of the recording of previously outstanding liabilities of the province as follows:

- liability for payments to municipalities for sewers and water decreased by \$26 million;
- criminal injury liability increased by \$1 million; and,
- liability for claims made to Workers' Compensation Board increased by \$1 million.

Otherwise, the reclassifications had no effect on the operating results or fund balances as previously reported, except as stated in Note 18.

26. Subsequent Events

On April 11, 1994, the province received payment in full for the False Creek note receivable in the form of a cash payment of \$131 million.

The *Budget Measures Implementation Act, 1994* repeals the *British Columbia Endowment Fund Act* effective June 30, 1995, or earlier if set by regulation. Proceeds of disposal of the assets will be used to reduce the province's debt.

Effective April 1, 1994, Discovery Foundation transferred its share in the Discovery Enterprise Corporation to the province in satisfaction of the outstanding loans made to it by the province to finance equity and debenture investments in advanced technology enterprises under the Discovery Enterprise Program. Market value of the shares is considered to be at least equal in value to the outstanding loan balance at transfer date.

On June 22, 1994, the government announced a land use plan for Vancouver Island intended to permanently protect 23 new parks and provide economic and job security for workers, their families and communities.

On May 18, 1994, the government acquired certain power assets of Cominco for \$51.85 million through investment in the Columbia Power Corporation (a newly-formed holding company incorporated on April 18, 1994).

Personal income tax was reduced by \$67 million (1993: \$37 million) and corporation income tax decreased by \$1 million (1993: increased by \$16 million). The types of tax credits adjusting personal and corporation income tax revenues are for foreign taxes, logging taxes, venture capital, political contributions, low income rent reductions, low income tax rebates and royalty tax rebates.

Property-residential (school purpose) revenue is net of home owner grants of \$405 million (1993: \$399 million).

²Net outstanding guaranteed debt includes gross principal debt less sinking fund balances, and represents the total amount of contingent liability of the government arising from relevant guarantees. Amounts payable in foreign currency are translated into Canadian dollars at the rate of exchange prevailing at the fiscal year-end.

³As a result of government financing and investment policies, \$1.1 billion (1993: \$1.4 billion) of guaranteed debt is held by trust funds actively managed by the government.

⁴The government is directly responsible for paying 58.56% to 100% of debt service costs for health and education debt through various grant formulas. In 1993/94, the contributions totalled approximately \$559 million (1993: \$523 million), or 86.27% (1993: 86.08%), of debt service costs.

⁵The British Columbia Second Mortgage Program was sold to the Bank of Montreal in June 1989, with the condition that the province will buy back any mortgages that may become uncollectible in future years.

⁶The government has unconditionally guaranteed the payment of principal and interest for \$3.4 billion (1993: \$3.6 billion) of debentures issued to the Canada Pension Plan Investment Fund. Debentures totalling \$2.8 billion (1993: \$2.9 billion) are included in net guaranteed debt and \$0.6 billion (1993: \$0.7 billion) have been defeased and are considered extinguished for financial reporting purposes.

SHORT-TERM PROMISSORY NOTES

Short-term promissory notes are short-term financial obligations issued by the Province of British Columbia to pay a sum of money on a given date. Short-term promissory notes are issued under the authority of the *Financial Administration Act* and an Order in Council of the Lieutenant Governor in Council. Short-term promissory notes (the "Notes") have the following characteristics:

- the principal amount of Notes outstanding at any time, for the purpose of the Province of British Columbia, may not exceed \$1.8 billion in Canadian funds
- the Notes may be issued in bearer or registered form and may either be interest bearing with principal and interest payable at maturity, or be issued at a discount to mature at the principal amount
- the Notes mature in 365 days or less.

TREASURY BILLS

Treasury bills are short-term financial obligations issued by the Province of British Columbia to pay a sum of money on a given date. Treasury bills do not pay interest but are sold at a discount and mature at par. The difference between issue price and par at maturity represents the lenders' income in lieu of interest. Treasury bills have the following characteristics:

- issued at a discount in lieu of interest payments
- maturity: 91 days or 182 days
- issued in Canadian currency
- transferable
- bought and sold on the open market.

¹ Issued under and pursuant to the *Financial Administration Act*, (S.B.C. 1981 Chapter 15) as amended and an Order in Council of the Lieutenant Governor in Council of the Province of British Columbia.

² Balances outstanding in Japanese Yen totalling 4.6 billion Yen (1993: 14.4 billion Yen) have been fully hedged to \$39.4 million Canadian (1993: \$116.7 million Canadian) through currency exchange agreements. Balances outstanding also include U.S. dollar debentures totalling \$764.1 million (1993: \$764.5 million) of which \$300 million (1993: \$300 million) have been fully hedged to \$365.6 million Canadian (1993: \$365.6 million Canadian) through currency exchange agreements. Unhedged U.S. dollar debentures were \$464.1 million (1993: \$464.5 million) at year-end. These are translated to Canadian dollars at the exchange rate prevailing at the year-end.

³ The province holds \$nil (1993: \$15 million) of the bonds issued and outstanding at March 31, 1994. The \$15 million held in 1993 were eliminated from the balance sheet for reporting purposes for the year ended March 31, 1993.

Under interest rate swap agreements relating to long and medium term debt with fixed rates, the fixed rate debt service payments are exchanged for variable rate payments for some of the notes, bonds and debentures. At March 31, 1994, \$550 million (1993: \$450 million) in Canadian dollar debt principal was subject to interest rate swaps. The agreements, which relate to four separate bond issues, mature at various dates up to September 21, 2005. Interest rate differentials range from 1.272% to 3.728%.

Under interest rate swap agreements relating to short-term debt, variable rate debt service payments are exchanged for fixed rate payments for some of the short-term promissory notes. At March 31, 1994, \$85 million (1993: \$85 million) in Canadian dollar debt principal was subject to interest rate swaps. The agreements mature at various dates up to February 19, 2001. Interest rate differentials range from 6.830% to 7.348%.

Under cross currency interest rate swap agreements relating to two U.S. dollar long term debt issues, the fixed rate debt service payments are exchanged for fixed rate payments in Canadian dollars. At March 31, 1994, \$300 million (1993: \$300 million) in U.S. dollar debt principal was subject to cross currency interest rate swaps. The agreements mature at various dates up to January 15, 2003. Interest rate differentials between U.S. dollar fixed rates and Canadian dollar fixed rates range from 0.865% to 1.655%.

Subsequent to March 31, 1994, one cross currency interest rate swap agreement totalling \$119.9 million in Canadian dollar equivalent was closed out and buyout payment totalling \$24 million was received.

Special Accounts

Physical Fitness and Amateur Sports Fund

This account was originally created as a fund under the *Revenue Surplus Appropriation Act*, 1969, was continued under the *Funds Control Act*, 1979, and was changed to a Special Account under the *Special Accounts Appropriation and Control Act*, 1988.

The account promotes the physical fitness of residents of the province and their participation in amateur sport. Interest earned on the account balance is credited to the account as revenue. Expenditures consist of grants to physical fitness and amateur sport projects, groups and organizations, and awards to individuals. Administration costs are provided through Vote 52.

No financing transactions are provided for under this account.

Revenue Sharing Fund

This account was originally created as a fund by the *Revenue Sharing Act*, 1977, was continued as a fund under the *Revenue Sharing Act*, 1979 and was changed to a Special Account under the *Special Accounts Appropriation and Control Act*, 1988. This account provides conditional and unconditional grants to all British Columbia local governments on the basis of established criteria. It also contains the Grant Stabilization Account, from which funds are available for purposes of grant stabilization, and the Local Government Emergency Account, from which funds are available to address local government fiscal requirements resulting from economic or environmental emergencies.

Revenue represents transfers from Vote 53. The amount of the transfers is determined by the formula contained in the *Revenue Sharing Act* (one point of both provincial personal and corporation income taxes, plus six per cent of provincial social service tax and six per cent of renewable and non-renewable resource revenue, including water rentals, plus or minus any previous years' adjustments). In addition, interest is calculated on the Grant Stabilization Account and Local Government Emergency Account at a rate based on government's average short term borrowing rates.

Expenditures are for both conditional and unconditional revenue sharing grants. Conditional grants are paid for general planning, police and public health equalization, municipal restructuring, underground placement of utility lines, water and sewerage facilities and studies, and major municipal highways. Most unconditional grants are distributed according to a formula with population, expenditure and assessment components. Administration costs are provided through Vote 52.

Changes to the balance occur when funds are transferred into, or out of, the Grant Stabilization Account or the Local Government Emergency Account. The account balance also increases when committed grants remain undisbursed as a result of conditions that are not met. When conditions are subsequently met, funds are disbursed and the balance reduced. The accumulated surplus represents uncommitted funds.

No financing transactions are provided for under this account.

1. Significant Accounting Policies

(a) REPORTING ENTITY

These financial statements include the accounts of the British Columbia Endowment Fund and organizations which are owned or controlled by the British Columbia Endowment Fund (W.L.C. Developments Ltd and Duke Point Development Limited in 1994).

The British Columbia Endowment Fund is a special fund, for purposes of the *Financial Administration Act*, established pursuant to the *British Columbia Endowment Fund Act*. Its purpose is to hold the assets of the special fund in perpetuity and keep them invested to produce revenue and economic benefit for British Columbia.

(b) PRINCIPLES OF CONSOLIDATION

The accounts of organizations owned or controlled by the British Columbia Endowment Fund are consolidated with the accounts of the British Columbia Endowment Fund after adjusting them to a basis consistent with the accounting policies described below. Inter-organization accounts and transactions are eliminated upon consolidation.

(c) BASIS OF ACCOUNTING AND SPECIFIC POLICIES

The basis of accounting, specific policies and 1994 changes in accounting policy, are as stated in the Significant Accounting Policies note of the Consolidated Revenue Fund Financial Statements, with the following amendments:

- In accounting for the British Columbia Endowment Fund, proceeds are defined as the proceeds arising from the disposition of assets or rights held by the Crown or an agent of the Crown and designated by the Lieutenant Governor in Council.
- The Minister of Finance and Corporate Relations may pay all or part of the accrued earnings of the British Columbia Endowment Fund to the General Fund, or into another special fund, as and when directed by the Lieutenant Governor in Council.
- The Minister of Finance and Corporate Relations is permitted to diversify the investments of the British Columbia Endowment Fund into additional classes of investment such as equities (domestic and foreign), mortgages, real estate, bonds (government and corporate) and venture capital.
- Investments are accounted for at market value. The difference between market value and cost is shown as unrealized appreciation or depreciation.
- Investment transactions are recorded on the trade date (the date the order to buy or sell is executed). Dividend income is recognized on the ex-dividend date and interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are calculated on the average cost basis.
- The market value of investments, other assets and liabilities in foreign currencies are translated into Canadian dollars at the closing rate of exchange on each valuation date. Purchases and sales of investments are translated at the exchange rate prevailing on the respective dates of such transactions. Income and expenses are translated into Canadian dollars at the monthly closing exchange rate.

Loans (disbursements) of up to \$500,000 are provided to stimulate investment in business, aquaculture and industrial production facilities and equipment under the Small Business Incentives Subsidiary Agreement and other programs. Loans may also be provided to support the economic plans of the Job Protection Commission.			
Total Financing Transactions	288,012,252	277,407,542	10,604,710

¹The purpose of this table is to show the receipts and disbursements for major financing transactions related to ministry programs, or administered by ministries, in order to fully disclose the government's financial transactions and provide documentation for the *Supply Act* which authorizes these transactions. Financing transactions do not affect operating revenue or expenditure or change the net equity of the province, except to the extent of concessionary loans. Concessionary loans are those granted at an interest rate less than market rate. The present value of the difference is considered as a grant and an expense of the period. They do, however, change the composition of the province's assets between cash and loans and other investments. As a result, they either increase or decrease the government's cash or borrowing requirements.

²Receipts represent only the recovery of the original advance, investment or loan principal (disbursements). Interest earned on outstanding advances, investments or loans is credited to the appropriate Special Account or to the main operating account revenue.

¹Deferred compensation are amounts earned in previous years and received in the current year. This would include, for example, vacation time not taken, or other lump sum payments. Up to October 1, 1988 Deputy Ministers were able to defer up to 15% of annual compensation. Amounts received in the current year appear as deferred compensation. This does not include employee benefits.
